BOIL WATER NOTICE
for
BLOCKER CROSSROADS WSC

June 2, 2026

Due to a water line break on Blocker Rd caused by an outside company clearing land without requesting water line marking, the Texas Commission on Environmental Quality has required the BLOCKERCROSSROADS WSC public water system to notify customers located on:

THIS NOTICE is for all customers supplied by BCWSC PLANT 1

This does NOT include customers whose water is supplied by BCWSC PLANT 2 - specifically those customers located on Brad Spann RD, Leisure Lane, Strickland Springs Road, those on Fm2625 east of Brad Spann Rd and customers on Roads off of FM 2625 east of brad Spann Rd

to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions concerning this matter, you may contact Coton Prothro at 903-399-1144 or call the office at 903-633-2250.
